

Sale Name: Larry Hagedorn Estate - Machinery

LOT 8 - Kubota M5640SU

Description

Has a brand new battery. It does everything it is supposed to do - gears, 3pt, PTO. Runs well. We bush hogged with it. The hired man told me that Larry lent it to someone and when they brought it back, the steering wheel shaft would pull up. I never would have noticed it if they hadn't told me, but it does, so be aware of that. The LED panel does not display properly, so we can't read the hours.

Quantity: 1
