

**Sale Name:** Howard Equipment & Tools - 605 North Sanford Rd., Deposit, NY - July 17th

**LOT 5A - M8 Davey Drilling Rig SN 568 - See Details & all Pics**

### Description

Roy Howard bought this out of Pennsylvania in December of 2020 with the intention of drilling shallow gas wells and got sick before he could ever do anything with it. She said he never got any kind of title or registration with it. You are buying it with a bill of sale only. The chassis is a mid 60s Ford 800. I'm pretty sure the driller has a 6-71 Detroit diesel. There are 19 drilling bits (most look unused) and (11) 20' drill steels. His bill of sale also says "25' Kelly w/ 4' sub, truck engine rebuilt w/ low hours, tires good." Rig and bits are located on Dan Woodfords's farm at 406 North Sanford Road and can be inspected there during preview hours. Dan told me that they drove it in there when they bought it and it hasn't moved since.

**Quantity:** 1
